

Who Should Attend..

This unique workshop delivers a comprehensive bearing introduction to personnel from NTN Authorized Distributors. The course is ideally suited to Distributor employees who have a minimum of two years of experience in counter or outside sales.

Whether you are new to bearings or experienced, this workshop will give you a greater understanding of bearing fundamentals and increased confidence to support customers with bearing application needs.

DISTRIBUTOR TRAINING SCHOOL

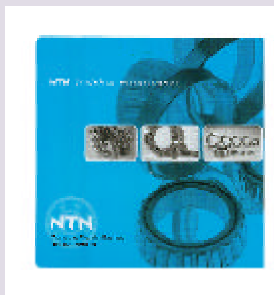

The NTN Distributor Training Program is an intensive 3 ½ day course that will “jump start” the newer Distributor employee and give deeper understanding to the experienced. The workshop provides a combination of classroom lectures and hands-on labs that enable graduates to serve their customers better.

- **Bearing Basics:**
Lubrication, radial internal clearance, fitting practice, handling and storage, classroom inspection of various bearing types.
- Design, nomenclature and typical uses of each product group are presented in product module format.
- Hands-on labs relating to bearing units, tapered bore mounting, radial internal clearance and failure analysis.
- Homework is assigned to reinforce the material presented during the day and focuses on the use of the catalog and problem solving.

➤ Free to every workshop participant ...

When you attend this workshop, you'll receive:

- A comprehensive bearing training manual that will become a handy reference for you back on the job.
- The NTN Electronic Catalog and “Info Kit”, which includes a quick Windows based bearing interchange.
- Hotel accommodation (if required Sunday through to Wednesday night - double occupancy), breakfast and lunch during the duration of the course. (Transportation to and from Toronto, incidentals and dinner in the evenings will be the responsibility of the distributor.)

To enroll, call toll free **1-888-827-7950**, on-line at www.ntn.ca/training.htm or fax us at 1-905-564-9023
